HCD-SERIES

curved display case

Performance and operating conditions

HCD series cake displays are designed to hold pre-heated products at serving temperature. Thermostat adjustable between 60°C & 110°C for products requiring different holding temperatures.

Standard Features

Heating system

Fan forced heating system. Includes humidity tray for holding water to keep product moist.

Controller

Adjustable microprocessor control with digital temperature display. Separate power & light switches

Body & Furnishing

Curved glass front. Fully insulated side panels. Top of display section is made from 10mm glass. Double glazed sliding doors to rear. (HCD.9 equipped with double glazed rear swinging doors.) All external panels are fully insulated and finished with satin finished 304 grade stainless steel on exterior faces. All internal surfaces are 304 grade stainless steel. Stainless top - rear serving shelf. Supplied on 78mm castors for ease of cleaning.

Shelves

2 adjustable and 1 fixed display shelves. All shelves illuminated with overhead high impact lighting. Shelves constructed from stainless steel wire, to prevent scratching & for ease of cleaning. Ticket stripping provided for top two shelves for improved product merchandising.

Options

Extra shelving available (non-illuminated)

Warranty

12 months onsite parts & labour.
